

LUMISPHERE® Lanterns

Lumisphere® Lanterns

Lumisphere® Lanterns utilise two of our low voltage LEDs/lamps, enclosed in a Stainless-Steel mesh and suspended from a marine grade wire.

These are a great option for industrial themed interiors eg: bars, restaurants, retail displays etc.

Our Lanterns are made to order with a choice of Globe and LED colours available.

Contact us if you have a lighting idea we can help bring to life with Lumisphere products!
